## Community Budget Meetings

The City of Des Moines is beginning to prepare its budget for 2005. Because we anticipate that there will be a \$3.3 million deficit in the City's operating budget, City officials want to gather community input on how to best handle this budget challenge. A good portion of the budget deficit is the result of several State-wide, tax-relief initiatives since 1999. The City Council has decided to ask Des Moines voters to consider a property tax increase specifically to help reduce the deficit and to preserve essential services. Please attend one or more of the community meetings to share your thoughts and suggestions.
